A TRAVELER'S HISTORY

You have come to one of the most remote and wildly beautiful places in the world, home to the original famous Superica restaurant and bar. The interior is much the same as the original explorers found it. You can experience anew the thrills they found on your own journey of discovery. The dining room depicts early Texas during the forging of the Western and Southwestern United States. In 1906 a family built the grand old El Tigre building on the east side of the plaza, and until the latter part of the century the building was occupied by diners from all over the region.

Superica, located now in the fully restored building, features a colorful dining room where delicious Mexican and American foods are served. You may know this as 'Tex-Mex' cuisine. Here, authentic products of craftsmanship are displayed along with curios that may be obtained. The atmosphere of the Old West has been preserved for the enjoyment of all guests.
