

TEQUILA

"SUPER-RICA"
TEX. MEX

(Silver) tequila is generally unaged and bottled right after distillation, but it may be aged for two months or less in stainless tanks or neutral oak barrels before bottling.

Aged for more than two months but less than one year in oak barrels of any size. Reposado is considered by many tequila connoisseurs to be the most compelling expression of tequila.

To be considered tequila, a spirit must be made from only Blue Weber Agave, and only in Mexico. Tequila's expense comes from the length of time required before harvesting a mature agave (7 to 10 years), as well as the artisanal production methods. Tequilas from the highlands of Jalisco tend to be fruitier and sweeter, while tequilas from the lowlands are often earthier. All tequilas listed are 100% agave.
